4 JAN 1965

MEMORANDUM FOR: Assistant Director for ELINT

SUBJECT: 25X1A Briefing

25X1A

1. The briefing conducted for OSA personnel on 17 December 1964 provided a considerable amount of valuable information regarding its concept and goal, but left unanswered certain more technical questions about the specific functions of each portion of the package. These questions are:

25X1A

25X1A

a. Block diagram of each configuration.

25X1A

b. Specific relationship on one piece of equipment to another.

c. Interdependence of one piece of equipment to another.

25X1A

d. Relationship of equipment in the concept to other "on board" systems.

e. Current status of prototype equipment and test performance, to include:

(1) Amount of further testing and modifications required to prove operational suitability.

(2) Known problem area.

2. It is requested that a briefing be scheduled for OSA to cover the above items. This should be coordinated

25X1A

GROUP 1
Excluded from automatic
downgrading and declassification.
